What water do you have — and what should it become?

Answer what you can — an engineer will design the treatment train for your site from it. Leave blank anything you do not know; we will clarify on a call.

1. Site

Organisation

Contact person, position

Phone, e-mail

Town, region

Type of site

☐ water utility ☐ village / housing estate ☐ industrial plant ☐ food production ☐ agribusiness
☐ boiler house ☐ private house ☐ other

2. Water source

Source

☐ well ☐ river, lake, reservoir ☐ mains supply ☐ domestic wastewater ☐ industrial wastewater
☐ other

Well depth / intake point

Seasonal changes (flood, algal bloom, turbidity)

3. What the water is for

Purpose

☐ drinking ☐ process water ☐ boiler / heating make-up ☐ food production ☐ livestock, irrigation
☐ discharge to sewer ☐ discharge to water body

Required result: standard, process or utility requirements

4. Volume

Demand, m³/day

Peak flow, m³/h

Operating mode

☐ 24/7 ☐ by shifts ☐ seasonal

5. Water analysis

Do you have an analysis

☐ yes — report attached ☐ no — tell us what to test

Date and laboratory

Sampling point

What is the problem

☐ iron, rust ☐ manganese ☐ turbidity ☐ colour ☐ odour ☐ hardness, scale ☐ salinity
☐ microbiology ☐ oil products ☐ organics (BOD, COD) ☐ other

6. Site conditions

Room: area, height, winter heating

Power: 220/380 V, available capacity

Where backwash water and concentrate can go

Existing treatment equipment

7. What you need now

Interested in

☐ free site survey ☐ design and proposal ☐ on-site pilot ☐ supply

Target timing and comments

How to send. Send the completed form and the analysis report to info@ecotechnew.ru or attach it to the request at ecotechnew.ru/global/en/#contact. An engineer's site survey is free of charge (site inspection and consultation; laboratory analyses are charged separately); date and location are agreed with you.

Treatment results are confirmed by before-and-after sample analysis in an accredited laboratory. By sending this form you agree to the processing of the personal data provided in order to answer your request (policy, in Russian: ecotechnew.ru/politika/). Version 1.0 · 14.10.2026.
